**Alex Klimov was born in 1987.**

My life and vision made great influence in my painting. All my works were done only with internal inspiration. Abstract world has a great variety of imaginagion. Each person can see something for himself in eah work. Some of my paintings were done by themselves. As Jackson Pollock told: *"My works are painted by themself, I only use only paint and inspiration."* It is much easier to arrange exhibition in Russia, Lithuania, Baltic countries, Spain. My challenge is to promote new art in my country as I know a lot of artists from my country whose works are much better then mine. I'm trying to move abstract art from the stop point which unfortunately exisin Belarus.

*"What is the title?" 30 x 60 cm.*
