

## Turkey

**Sebnem Tuncer. Born in 1960** and lives in Istanbul one of the most attractive cities of the world that first comes to mind when talking about art.

She always had an interest in art and practices oil and water painting since her early teenager years. She has been sculpting at the Isd-Art Sculpture and Design Studio since 2013.

She has attended exhibitions and fairs in Turkey, (Countries) and the

US, with her figurative and abstract art works.

The main themes for her sculptures are “human and life”.

She sometimes starts working with inspirations from surrounding and sometimes from her inner world. Sometimes she questions life in her artworks, and sometimes she sails to the seas. Sometimes a miner’s scream can find form in her hands and sometimes the silence of a dervish.

As she tries to illustrate all the emotions that mold and define the human, she also gets influenced by some events around the World.

According to the artist, every single piece of art work has a unique energy, emotion and soul and it achieves it’s objective if these features feed and enrich the spirit of the person looking at the creation.
