A professional painter since 1998, Christine attended evening classes for fine art in Vienna and completed her Masters at the Art Summer Academy of Venice, Italy. She has also enjoyed participating in several workshops with recognized artists.

“Christine Heitler is an artist whose paintings are the purest example of a brilliant abstract talent. She uses colors with an incredible naturalness of the pictorial gesture, a series of dynamic and rapid brushstrokes well mixed to the dripping technique, gives to painting a deep vitality. The spectator gets lost among all those colors, but the work is magnetic and so he never stops paying attention, but on the contrary, is pushed by the charm of the composition, to find its real meaning. A very good style exercise that shows how far Christine Heitler can go thanks to her commitment in the world of contemporary art.”
