Natural of Vagos / Aveiro / Portugal.

I did the secondary in Arts (National Lyceum Manuel Laranjeira, Espinho).

I have participated in several individual and collective exhibitions in Portugal and abroad.

My hands that to the sad without life give light, where

the color once dying today is a colorful lump, having the copper as background and sometimes Africa bed of the world.

Hands that speak artist's language, hands of woman and mother.

Hands that say everything in surdina without aiming for stardom.

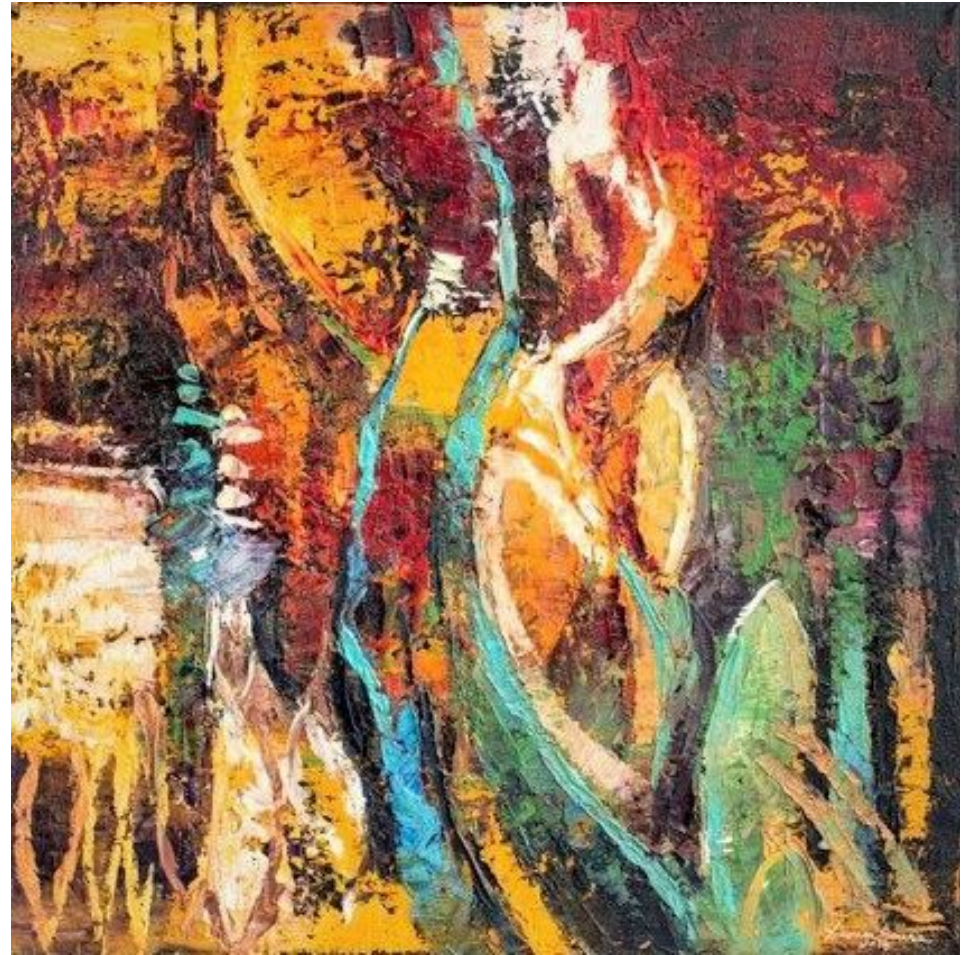

In short: - Hands that dialogue even without palate and that in everything they do.

They give life and color with all the knowledge in everything they paint love ...

They are simply my hands.

Individual and collective exhibitions, either national or international Portugal, France, Italy, Switzerland, Spain, Luxembourg and Brazil.
