Lina Forsdahl

I was born in Poland with roots in France and lives in Sweden since 1981. My first steps in art go back to the Famous Artists School "FAS" I have also done garden design and photography. Now and since 2014 I have been actively exhibiting in Europe; USA and Asia.

"I am inspired by music, everything beautiful and unique in nature, and so of my own poetry. Important to my art is color nuances, that make the artworks come alive, light, balance, deep, harmony and rhythm. I am fascinated by how much positive beautiful art affects everyone's

minds to be happy." As children my first steps in art go back to my paintings in watercolor then oil and now most in acrylic.

My Personality appears in my paintings, which are both soft, sparkling, colorful, dreamy, lovely and beautiful. Differential strokes are made with powerful colors, organic forms and unique flowers.

Brilliant color nuances make my artworks come alive. Deep colors of the background I let the light strokes of surfaces reflected. My paintings are like future stories, containing romance, passion, mystery and poetry. "If there had been a ladder to the moon, then I would like to see it in the eyes. And tell everyone that it's swinging in the universe my dream and artistic inspiration".
