

Sweden.

Lisbeth Häljesgård, born in 1952.

I am a self-taught watercolor artist from Sweden, and Watercolor is for me a fantastic means of expression. I paint mostly nature and landscapes, and the lovely Nordic light gives me a great inspiration.

Sometimes I use only one color in a painting, then I can express light and dark values with just the brush,

color and water, that gives me a very big challenge to try to give the painting depth and lights.

The painting "Nordic Light" is painted in just the color "Neutral Tint"

It's my inner feeling that determines most of the subjects. By suggesting motives and sentiments, I want to make the viewer complicit.

I have participated in several exhibitions, (even juried) in Sweden and in different countries, as in Island (Reykjavik), Austria (Kitzbühl and Vienna), Monaco (Monte Carlo), France (Paris), Great Britain (London), Hungary (Budapest) and Italy (Toscana and Rome).

My art has been rewarded by several prizes during the years.
