

## Denmark

**Louise Christensen.**  
**Born ind 1968.**

Lives and works in  
North Zealand,  
Denmark.

I am a self-taught  
artist, has lived 10  
years in Vienna and in  
Königstein im Taunus  
near Frankfurt am  
Main, where I started  
my work as a visual  
artist. Spring 2011 I  
chose to return to my  
home country  
Denmark, where I now

live and work.

The inspiration for my work comes to me from nature, reflections on life and dreams. I work mostly intuitively and the theme that concerns me the most, and is like a golden thread through my personal life, is the voltage and interaction between the earthly world and the heavenly world, with all that this implies.

The materials I use are a mix of acrylic on canvas, natural materials such as flowers and plants, stone, sand, self-made art paper, my own photos, textiles, objects such as glasses, shoes, clothes, snakeskin – all that inspires me in my process.

Welcome to my universe – I hope you will enjoy your journey!
