

Austria

Maria Tompa.

I have been living in Vienna, Austria, but I'm born in Transylvania, as part of the there living Hungarian minority.

All I am and what I do is influenced by the vast diversity of this countrys.

I studied Glasspainting and Photographie, but my artistic interests, my heart and soul belongs to painting.

The very exciting, interesting and challenging moment for me is to provide

for the white, untouched canvas a life.

Art teaches us, again and again, regardless of the opinion of others, go our way and stand to our us.

I try to show my dreams, fantasy, passion throught my very coloful, surreal, sometimes mystical, aspired at harmony Artworks.

Whit my works, also in " Eyes of the Universe " wanted to show the mystery of the universes from my point of view.

It is no Space and Time, Everything revolves and still returns to the Origin, whit the hope, that Always will existing a new Start.

I have participated in several exhibitions,mostly in Italy and at Expo 2015 in Milano with success.
